

GHSP HELPS LOCAL SCHOOL GET NEW ART TABLES

Grand Haven, MI— 27 January 2010

Ferry Elementary School had a problem. The folding tables in the Art Room were too tall for the kids. Here are some kids sitting at the old tables.

The school's PTA was able to raise enough money to purchase new tables, but they didn't have the money to get the new tables delivered to the school. GHSP's Global Logistics Manager, Tom Hoch, learned about the problem and quickly said "I think I can get one of my carriers to help out by bring those tables to Grand Haven along with our normal freight". Shortly after the tables were completed they were delivered to the Grand Haven plant. A day later GHSP delivered them to the Art room at Ferry School. Here are some happy kids showing how high the old tables were.
