
GHSP Supply Visualization for GHSP Domestic Facilities

October 30, 2008

Overview

- Supply Visualization (SV) is an integrated system directly linked to QAD, our ERP system.
- Provides the tools for Suppliers and GHSP to access to the same data for inventory, supplier schedules along with alerts and notes.

Supplier Requirements (All Suppliers)

- Obtain password, login and instructions from their Commodity Buyer
- Review their schedules weekly (available every Tuesday at noon unless Monday is a Holiday)
- ASN's must be sent within 2 hours of shipment or before product arrival at GHSP.

Supplier Requirements (All Suppliers) continued

- Receipt adjustments will be handled by the PTR process.
- Preferred method is all parts on one ASN.
- Advise your GHSP Materials contact immediately if schedules can not be met.
- Email the GHSP-SV Help Desk with any questions or issues related to SV.
 - Email the GHSP SV Helpdesk at svhelpdesk@ghsp.com

Min/Max Supplier Requirements

- Obtain a time fence from the GHSP Materials Team for reviewing SV to determine your shipping requirements.
- Ship on days/times established by the GHSP Materials Team
- Provide standard container/shipping lot size to the GHSP Materials Team
- Ship as detailed on the SV screen for Replenishment quantity
